PAST MASTERS® SERIES

SIGMUND FREUD: DAS GESAMTE WERK

InteLex is proud to announce the most comprehensive edition ever assembled of texts from Sigmund Freud (1856-1939). It includes all of the texts provided in the hitherto most complete editions (*Gesammelte Werke*, 1940-52, and the *Studienausgabe*, 1969-75) which featured all of the classical texts from the 1899 *Traumdeutung* to *Moses und die monotheistische Religion* from 1937. In this new edition, these texts have been considerably augmented through further, often widely dispersed texts from Freud's early neurological work, newspaper articles, book reviews, dictionary entries and journal contributions. More than 430 texts are included with over 9000 pages of text (to compare, the *Studienausgabe* has ca. 4500 pages).

InteLex Corporation's *Past Masters* series encompasses the largest collection of full-text electronic editions in philosophy in the world. The series features significant collections in political science, religious studies, education, French and German studies, sociology, philosophy of science, economics, and classics. InteLex acquires and develops definitive editions of the full corpora of the seminal figures in the history of the human sciences, including their unpublished texts, articles, and correspondence. The *Past Masters* series has opened a new and exciting chapter in the history of scholarly research, and is now being utilized at over 200 research libraries in North America and Europe, and at over 1300 institutions in 46 countries worldwide.

InteLex's resources in philosophy and social thought have long been a mainstay of our collection at the Electronic Text Service. The company's selection of resources, careful text editing, and sensitivity to the budgetary constraints of academic institutions make them a model of what scholarly academic publishing in the electronic field should be.
